PROFESSIONAL SUMMARY

Python / Odoo Developer with hands-on internship experience working across Odoo 16, 17, 18, and 19, with a primary focus on Odoo customization and development. Experienced in Python, Odoo ORM, PostgreSQL, XML views, QWeb reports, custom module development, model inheritance, access controls, and ERP workflow customization. Familiar with debugging, module migration and compatibility, and business process customization across HR, Time Off, Sales, Inventory, and Accounting. Additional experience building web applications using FastAPI, React, Django, and SQLite.

SKILLS

Programming Languages: Python, Java, C, JavaScript | **ERP Development:** Odoo 16, 17, 18, 19; Odoo ORM, Custom Module Development, Model Inheritance, XML Views, QWeb Reports, ERP Workflow Customization, Access Rights and Record Rules | **Frameworks / Technologies:** FastAPI, Django, React, Vite, REST APIs, HTML5, CSS3, WordPress | **Databases:** PostgreSQL, MySQL, SQLite | **Tools / Platforms:** Git, GitHub, VS Code, Microsoft Excel | **Web Development:** REST APIs, React/Vite, Frontend & Backend Development

PROFESSIONAL EXPERIENCE

Biztras Technologies, *Python / Odoo Developer Intern* 04/2026 – 10/2026
Thalassery, Kerala

- Developed and customized Odoo ERP functionality using Python, Odoo ORM, XML, and QWeb across Odoo 16, 17, 18, and 19.
- Created custom models, fields, views, actions, menus, and business logic to meet company-specific requirements.
- Extended standard Odoo models through inheritance and implemented custom functionality within existing ERP applications.
- Worked across multiple functional areas, including Human Resources, Employees, Time Off, Sales, Inventory, Stock Transfers, and Accounting.
- Customized employee management features, Time Off balance calculations, calendar access rules, and inventory and delivery workflows.
- Worked with PostgreSQL for database operations, data inspection, troubleshooting, and Odoo application development.
- Debugged server-side exceptions, XML view errors, module installation and upgrade failures, and database-related issues.
- Worked on QWeb reports, access control configurations, and version-specific view and framework changes.

EDUCATION

B.Tech in Information Technology, *APJ Abdul Kalam Technological University, Kerala* 2021 – 2025

Higher Secondary — Science, *GVHSS Kadirur, Kerala* 2020 – 2021

PROJECTS

Odoo ERP Customization and Module Development, *Python | Odoo 16, 17, 18, 19 | PostgreSQL | XML | QWeb*

- Worked on Odoo development and customization across versions 16, 17, 18, and 19.
- Developed custom Odoo modules for employee management, HR workflows, and ERP business requirements.
- Extended standard Odoo models using inheritance and implemented custom fields, views, menus, actions, and access controls.
- Customized workflows across Human Resources, Employees, Time Off, Sales, Inventory, Stock Transfers, and Accounting.
- Worked on employee identification, Time Off balance functionality, calendar access rules, and inventory and delivery customizations.
- Customized XML views, QWeb reports, and accounting-related functionality to meet business requirements.
- Debugged module installation and upgrade issues, server errors, database problems, and view compatibility issues across Odoo versions.

Sale Ex Home Dashboard, *FastAPI | React | Vite | SQLite*

- Developed a sales management dashboard featuring leads, inventory, orders, outstanding dues, and summary information.
- Built RESTful APIs using FastAPI and integrated backend services with a React frontend.
- Implemented customer interaction features and data management using SQLite.
- Developed frontend and backend components to support sales operations and dashboard reporting.

Learning Disability Detection System, *Python | Django | MySQL | HTML | CSS |Random Forest*

- Developed a machine-learning-based web application for screening potential learning disabilities.
- Implemented data preprocessing and classification using the Random Forest algorithm.
- Built a web interface for assessment data collection and result visualization.

Canteen Management System, *HTML, CSS, JavaScript, MySQL*
- Developed a web application to manage menus, orders, and inventory.
- Implemented an administrative dashboard for menu management, sales tracking, and user management.
- Used MySQL to store and manage application data.
